Descriptive Summary

Title: Presidio Trust Environmental Remediation Collection

Collection number: A9964

Creator: Presidio Trust (U.S.)

Extent: Approximately 161 items

Repository: Institute of Governmental Studies. Library
Berkeley, California 94720-2370

Shelf location: Housed at the Northern Regional Library Facility (NRLF). NRLF location numbers for particular items are listed in the catalog record for the collection in the Berkeley campus online catalog (Gladis/Pathfinder). Match the IGS Library call number in the Classified List of Items to the NRLF location number.

Language: English

Access

Collection is open for research.

Organizational History

In 1996 the Presidio Trust Act created the Presidio Trust, which is a wholly owned federal government corporation. The purposes of the Trust are to preserve and enhance the Presidio as a national park and to ensure that the Presidio becomes financially self-sufficient by 2013 (i.e., generate sufficient revenue without any federal appropriation to fund long-term operating and maintenance costs). The U.S. Army occupied the Presidio for 148 years before closing its post in 1994. As part of an environmental cleanup agreement the U.S. Army will supply the Trust with \$100 million dollars to provide for fast-track restoration of areas impacted by the military's use of the site. In accordance with this agreement, in August 1999 the Base Realignment and Closure (BRAC) collection at East Fort Baker was transferred to the Trust and has been renamed the Presidio Trust Environmental Remediation Collection. This collection will continue to grow as remediation projects are completed.

Scope and Content

Contains environmental reports and studies, some focused on particular buildings and complexes, and some focused on particular hazards, such as lead-based paint and underground storage tanks. Most items are in large binders. The collection is not complete. Additional items may be added.
