Scope and Content of Collection

The Stephen John Tonsor papers, acquired in 2002, consist of correspondence, speeches and writings and other materials relating to conservative political thought and to higher education in the United States.

The bulk of the materials contained in the Correspondence series include Stephen Tonsor's personal correspondence with his friends and family members, various organizations he was associated with, and exchange of official letters with his colleagues relating to students' requests for recommendations for teaching positions and admission to graduate programs in different universities around the country. Among his personal correspondents, special mention should be made of, F. A. Hayek, Sidney Hook, Henry Regnery, and Eric Voegelin. Speeches and Writings reflect his political ideas relating to conservative ideology, his views about current educational systems and problems arising out of that system. Some of Henry Regnery's writings are included in the Writings by Others series.

The inclusion of photographs sent to him by his friends, such as Annelise Thimme, George Tilton, and others, complement the series previously mentioned.

Arrangement

The collection is organized into eight series: Biographical File, Correspondence, Speeches and Writings, University of Michigan File, Writings by Others, Subject File, Oversize Material, Photographs
