#### **Scope and Content Note**

The first installment of the Mont Pèlerin Society records held at the Hoover Institution Archives was received in 1981 and described in a preliminary inventory that is now superseded by the present register.

Those initial records consisted mainly of Albert Hunold's correspondence, which now constitutes the bulk of the correspondence series, and of his files relating to the general and regional meetings he organized as secretary of the society from 1948 to 1960, which are to be found in the meetings series and which also includes material relating to subsequent meetings up to 1990. It should be noted that the correspondence for the first meeting in 1947 also contains important letters dating back to 1945 regarding the founding of the Society.

The remaining of Albert Hunold's papers received in 1981 is to be found in the office file, particularly the circulars and minutes of meetings. Also included are issues of *The Mont Pèlerin Quarterly*, edited by Hunold, and his 1962 writing "How the Mont Pèlerin Society Lost Its Soul," which gives his perspective on the so-called "Hunold Affair."

Later, in 1987, the Hoover Archives received the papers of several treasurers of the society, which can be found in the treasurers' file. Here too, the correspondence of these officers is particularly noteworthy, as is the correspondence with foundations, especially the Relm Foundation, regarding travel and other grants for members of the Society. Financial records and other materials relating to the meetings, however, were added to the meetings series.

The records in the smaller newsletter file, received in 1995, are also interesting, especially for the correspondence of Eric Brodin, one of the editors of The Mont Pèlerin Society Newsletter.

Finally, the collection includes a large amount of photographs, film strips, and phonotapes, mostly relating to the Society's meetings.

Researchers interested in the activities of the society should also consult the Friedrich A. von Hayek papers at the Hoover Archives, particularly its series on the Mont Pèlerin Society in boxes 71-89, as well as the papers of several other prominent members such as John Davenport, Milton Friedman, Gottfried Haberler, F. A. Harper, Fritz Machlup, G. Warren Nutter, Karl Popper, Gordon Tullock.

Also available for consultation in the reading room of the Hoover Archives is the excellent book by R. M. Hartwell, *A History of the Mont Pèlerin Society* (1995), from which much of the information in the Historical Note is drawn.
