Descriptive Summary

Title: Public Affairs Office Records

Date (inclusive): 1940-2003

Collection Number: AFS1380

Creator: Ames Research Center

Extent: Number of containers: 58

Volume: 23.5 cubic feet

Repository: Ames Research Center, Ames History Office
Moffett Field, California 94035

Abstract: The Public Affairs Office Records collection in the NASA Ames History Office comprises news materials, subject files, and photographs produced and accumulated by Public Affairs Office staff. These records were used in fulfillment of the Center's mandate, under the 1958 National Aeronautics and Space Act, to disseminate information about its activities to the public.

Language: English

Access

Collection is open for research.

Publication Rights

Copyright does not apply to United States government records. For non-government material, researcher must contact the original creator.

Preferred Citation

Acquisition Information

Materials transferred to the History Office by the NASA Ames Technical Library in June of 2004, Ola Cook of the Public Affairs Office in July and August of 2004, and Astrid Terlep of the Public Affairs Office in December of 2004.

Administrative History

The public affairs function at NASA Ames has operated under a variety of names. The Public Affairs Office (PAO, Code DI, Code DX), or Public Information Office (Code DXI), Media Relations Office (Code DXI), Media Services Office (Code DXI), External Affairs Office (Code DI), or Communication Branch (Code DXC), has always been part of the Office of the Director (Code D, Code ODA) of the NASA Ames Research Center at Moffett Field, CA.

Operating from 1958 through the present (2009) on behalf of the NASA Ames Research Center, the main task of the Public Affairs Office has been to provide the public with information about the activities of the Center. This task is mandated in the 1958 National Aeronautics and Space Act, which states that NASA, "in order to carry out the purpose of this Act, shall . . . provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof" (42 US Code 2473). In its own words, the Public Affairs Office "manages the public information creation and dissemination process to communicate and promote the vision, missions, capabilities and accomplishments of NASA and Ames" (NASA Ames Research Center Public Affairs Office.

<http://www.nasa.gov/centers/ames/news/publicaffairs.html> accessed February 12, 2008). The Public Affairs Office at NASA Ames has always coordinated its activities closely with the Public Affairs Office at NASA Headquarters, especially in terms of style guides and administrative procedures.

A major contribution of the Public Affairs Office has been its production and distribution of written and visual materials describing the people, facilities and research activities at Ames, such as reports and news releases with corresponding photographs, and the Center's internal newsletter, the *Ames Astrogram*. For nearly 50 years, the office has chronicled the Center's support of NASA missions and its significant contributions to such fields as aeronautics, planetary science, life science, astrobiology, computational fluid dynamics, robotics, and nanotechnology.

The origin of a public relations function at Ames predates its inclusion in NASA, beginning under a precursor organization known as the Ames Aeronautical Laboratory (AAL), which was established in 1939 as part of the National Advisory Committee for Aeronautics (NACA). According to Ames historian Edwin P. Hartman, early information dissemination efforts in AAL were limited to providing accurate research information, mainly in the form of Technical Notes, Technical Reports, and Technical Memoranda, to a select field of interested parties such as researchers, universities, and aircraft companies. Apparently, NACA questioned the ethicality of pursuing public relations efforts, and avoided this type of activity until a few years after World War II. Then, facing greater public scrutiny and more competition for funding, it became concerned with its public image and hired Aeronautical Information Officers for each of its laboratories. In March 1949, Don Wiley was appointed to be the first Aeronautical Information Officer for AAL, with Daniel S. Wentz II stepping in to replace him in 1953. Among their responsibilities, these men were charged with responding to inquiries about AAL from other organizations and the surrounding community. With the NACA's reincarnation as the National Aeronautics and Space Administration in 1958, Wentz became the first Public Information Officer for NASA Ames. Through 2003, Wentz was succeeded by nine individuals in charge of the Center's core public affairs efforts: Bradford A. Evans (1962), Stanley Miller (1970), Lauren D. King (1981), Richard Reeves (1986), John F. Murphy (1988), Del Harding (1990), Michael Marlaire (1995), David R. Morse (1999), and Ann Sullivan (2003). In 1967, the title of Public Information Officer was discarded in favor of Public Affairs Officer, and in 1985 the title became, simply, "Chief" of the branch.

Indexing Terms

The following terms may be used to index this collection.

Corporate Name

Ames Aeronautical Laboratory (U.S.).
Ames Research Center.
United States. National Aeronautics and Space Administration. Ames Research Center. Public Affairs Office.

Subjects

Ames Research Center--History.
Ames Research Center--Public Relations.
Government information agencies--United States.

Geographic Names

Moffett Field (Calif.)

Scope and Content

The Public Affairs Office Records (23.5 cubic feet) contain four main types of documentation accumulated by the office: records generated for the purpose of disseminating information about the activities and people of the NASA Ames Research Center to the press and general public; records accumulated by the office for use as reference material; records accumulated by the office for the purpose of tracking the media penetration of its communications efforts; and records used to document and keep track of the office's internal business. The bulk of the records in this collection document the first two areas, information prepared by the Center and broadcast.

The collection encompasses bound volumes and vertical files containing records, in various formats, on a wide range of subjects pertaining to the Center's research activities, projects, and facilities during the twentieth and twenty-first centuries. Included in these are news releases with and without corresponding photographs; bulletins; information sheets; brochures; official NASA Ames photographs and transparencies (including a few proof sheets); and slide presentations. There are clippings files of local and national press coverage of NASA and Ames accumulated by the office, as well as albums containing collections of photographs, and press materials for specific space shuttle missions from 1981-1994. Also present are internal records, including snapshots of staff and displays at trade show events from 1995-1998; administrative reference materials, mainly from the 1990s, such as handbooks and manuals; a catalog of videos produced by the office dated 1991; photograph captions dated from 1959-1992; *Astrogram* Committee records from 1991-1993; and staff notices from 1994-1995. The bulk of the records are in the form of press releases and their corresponding photographs.

Across subjects, coverage is inconsistent, with greater information available for some topics, such as Space Shuttle missions, and less coverage for others, such as rocket systems. Because of efforts to retain original order of the records, there is redundancy in the records across the series.

System of Arrangement

The records are arranged in four series, all of which have been further arranged into subseries. The contents of Series I, News Materials, 1949-2003, are arranged by format, with bound materials in a separate subseries from files, and then chronologically, by type (news releases, news clippings, and articles) and creator (NASA, Ames, or Moffett Field). Materials in Series II, Subject Files, are organized alphabetically. The contents of Series III, Photographic Materials, are grouped by format and further organized by subject. In subseries 1, Photographs, Subject Files, the original order of the files below the subject level frequently appeared to be disrupted and could not be determined, so an alphabetical arrangement was imposed. In subseries 2A, Transparencies/Subject Files are arranged in their original, alphabetical order. Materials in subseries 2B, Transparencies/Slides, were removed from their original binders and placed in protective housing in the order in which they appeared in the binders, from left-to-right, and top-to-bottom. Every effort was made to retain the original arrangement of the contents of Series II and III, even though there is duplication in subjects covered and records contained therein. Series IV, Administration and General Reference series, is arranged into three groups related to the internal business of the office, the first being materials the office used to conduct business and the remainder being records used to conduct research. These latter constitute a portion of the office's library of reference publications.

I News Materials 1949-1993

Physical Description: 52 folders, 36 volumes.

Scope and Content Note

This series includes a complete run of press releases issued by Ames (NACA and NASA) from 1949 to 1993, which are contained in 31 volumes, as well as files containing news releases issued by NASA and NASA Ames from 1990 to 2003. There are five volumes of press kits issued by NASA Ames, which describe the Biosatellite A, B and D, Pioneer 10, 11, and Pioneer Venus missions. Press kits contain a collection of simplified technical information about a spacecraft and a mission, and are usually issued in conjunction with a launch. Also included are files containing newspaper and magazine clippings concerning projects, programs, and activities of NASA and NASA Ames, and the transfer of Moffett Field from the US Navy to NASA.

II Subject Files

Physical Description: 312 folders

Scope and Content Note

This series contains fact sheets, brochures, press releases, historical summaries, and other materials the Public Affairs Office maintained in vertical files. A wide range of topics mainly pertaining to NASA and Ames are represented here, including space exploration technologies and efforts, such as Apollo, Pioneer, Galileo, and space telescopes; the search for intelligent life with the SETI program; research facilities, such as the various wind tunnels and supercomputing arrays at Ames; sister facilities, such as Moffett Field and Crow's Landing; life sciences research; and earth study technologies and efforts, such as remote sensing activities and aircraft used in the airborne science projects. Also present is a collection of albums thoroughly documenting the crews and objectives of Space Shuttle missions STS-1 through STS-62, flown from 1981 to 1994.

III Photographic Materials

Physical Description: 273 folders, 6 boxes of slides

Scope and Content Note

This series contains photographic materials the Public Affairs Office maintained in vertical files, the bulk of which appear to have been used in news releases on various topics, mainly related to research projects and facilities at Ames. The bulk of the material consists of 8" x 10" glossy photographs with corresponding news releases. Subjects include images captured from spacecraft, such as the Pioneer satellites and Viking landers; space life sciences efforts, such as human factors research, and plant and animal studies; earth science research, such as tracking wildfires and studying the ozone layer; aircraft research and development, such as the Oblique Wing, Quiet, Short-Haul Research Aircraft, Rotorcraft Systems Research Aircraft, and XV-15 Tilt Rotor Research Aircraft; computational research, such as numerical aerodynamic simulation; and research facilities, such as ballistic ranges, air traffic management facilities, wind tunnels, and supercomputing arrays.

IV Administration and General Reference

Physical Description: 39 folders

Scope and Content Note

This series contains a scattering of records generated by the Public Affairs Office to document its business, such as Astrogram Committee binders, as well as publications the office used in the course of conducting its business, such as NASA management guidelines and resource catalogs, and miscellaneous reference publications, such as NASA strategic plans and initiatives and NACA personnel publications.

I. Computing/Simulations

Box 41, Folder 1 **Numerical Aerodynamic Simulation Facility (NAS)**
Box 41, Folder 2 **CRAY I/O Subsystem, X-MP, Y-MP, Y-MP C90**
Box 41, Folder 3 **CRAY 2**
Box 41, Folder 4 **Workstation**
Box 41, Folder 5 **Cylinders**
Box 41, Folder 6 **Ogive Cylinder**
Box 41, Folder 7 **Double Delta Wing**
Box 41, Folder 8 **F-16A**
Box 41, Folder 9 **Flying Wing**
Box 41, Folder 10 **Jet Engine**
Box 41, Folder 11 **Joined Wing**
Box 41, Folder 12 **Particle Traces**
Box 41, Folder 13 **Space Shuttle**
Box 41, Folder 14 **Wing Body**

J. Virtual Reality/Automation

Box 42, Folder 1 **Air Traffic Management**
Box 42, Folder 2 **Automation Science Research Facility**
Box 42, Folder 3 **Remote Sensing**
Box 42, Folder 4 **Russian Rover**
Box 42, Folder 5 **Underwater Rover**
Box 42, Folder 6 **Virtual Reality**
Box 42, Folder 7 **Virtual Environment**
Box 42, Folder 8 **Virtual Wind Tunnel**

K. Miscellaneous Topics

Box 42, Folder 9 **Ames Aerospace Encounter**
Box 42, Folder 10 **Ames Research Center, Historical**
Box 42, Folder 11 **Anniversary of NASA**
Box 42, Folder 12 **Artificial Intelligence**
Box 42, Folder 13 **Astronaut Candidate Training**
Box 42, Folder 14 **Fluid Mechanics Laboratory**
Box 42, Folder 15 **Glenn Research Center**
Box 42, Folder 16 **Lasers**
Box 42, Folder 17 **Life Science**
Box 42, Folder 18 **Luminescent Paint**
Box 42, Folder 19 **Mechanical Response Tissue Analyzer (MRTA)**

III. Photographic Materials

1. Photographs, Subject Files, 1981-1994.

Box 42, Folder 20	NST Labs
Box 43, Folder 1	Presentation Binder, NASA Ames Reuse Planning for Moffett Field
Box 43, Folder 2	Rockets/Propulsion
Box 43, Folder 3	Space Colony
Box 43, Folder 4	Unsteady Lift Model
Box 43, Folder 5	Vertical Gun Range

2. Transparencies

A. Subject Files

Box 44, Folder 1	A73-9224
Box 44, Folder 2	Earth
Box 44, Folder 3	Miscellaneous (1 of 3)
Box 44, Folder 4	Miscellaneous (2 of 3)
Box 44, Folder 5	Miscellaneous (3 of 3)
Box 44, Folder 6	Shuttle on Launch Pad, 55
Box 44, Folder 7	Shuttle with 747, 56
Box 44, Folder 8	Simulators, 57
Box 44, Folder 9	Skylab, 58 (1 of 2)
Box 44, Folder 10	Skylab, 58 (2 of 2)
Box 44, Folder 11	Solar System, 59
Box 44, Folder 12	Space Settlement, Space Station, 60 (1 of 2)
Box 44, Folder 13	Space Settlement, Space Station, 60 (2 of 2)
Box 44, Folder 14	Space Shuttle, Artist Concepts, 61 (1 of 2)
Box 45, Folder 1	Space Shuttle, Artist Concepts, 61 (2 of 2)
Box 45, Folder 2	Space Shuttle, Miscellaneous, 62 (1 of 2)
Box 45, Folder 3	Space Shuttle, Miscellaneous, 62 (2 of 2)
Box 45, Folder 4	Space Suits, 63
Box 45, Folder 5	Space Walks, 64
Box 45, Folder 6	Sun, 65
Box 45, Folder 7	Supercomputers, 66
Box 45, Folder 8	Ultraviolet Imag. Telescope, 67
Box 45, Folder 9	Uranus, 68
Box 45, Folder 10	Venus, 69
Box 45, Folder 11	Venus, Artist Concept, 70
Box 45, Folder 12	Virtual Reality, 71
Box 45, Folder 13	Voyager, 72
Box 45, Folder 14	Weather Clouds, 73
Box 45, Folder 15	Wind Tunnels, 74

B. Slides

Box 46, Folder 1	Slide Binder 1 Covers and Documentation
Box 46, Folder 2	Slide Binder 2 Covers and Documentation
Box 46, Folder 3	Slide Binder 3 Covers and Documentation
Box 46, Folder 4	Overhead Presentations, Documentation
Box 46, Folder 5	Hubble Space Telescope Presentation Documentation
Box SB1, Folder 1-A	Slide Binder 1: Sun, Jupiter, Mars, Moon, and Saturn
Box SB1, Folder 1-B	Slide Binder 1: Saturn, Saturn's Moons, Uranus, Venus, Ozone, Probes and Satellites
Box SB1, Folder 1-C	Slide Binder 2: Receiving Dishes, Space Station, and Shuttle
Box SB1, Folder 1-D	Slide Binder 2: Shuttle, Virtual Reality, Aircraft, Astronomical Views, Comets and Asteroids, Earth, Earth (J. Hogan), Earth Rise, and Extravehicular Activity (EVA)
Box SB1, Folder 1-E	Slide Binders 2 and 3, and Slides from Photograph Subject Files: Extravehicular Activity (EVA), High Altitude, Launches, Man on Moon, NASA Worm, Miscellaneous, NASP
Box SB1, Folder 1-F	Slide Binder 3 and Slides from Photograph Subject Files: Hubble Space Telescope Sets, A86-0256-11, Pegasus, Overhead Presentations, Infrared Astronomy Satellite (IRAS), ER-2 Earth Resources, Heavy Lifter Airship, Quiet Short-Haul Research Aircraft, and T-38 Talon

III. Photographic Materials

3. Albums and Snapshots, Trade Shows

3. Albums and Snapshots, Trade Shows

Box 47, Folder 1	Oshkosh Convention 1995
Box 47, Folder 2	Oshkosh Convention, 1996 (1 of 2)
Box 47, Folder 3	Oshkosh Convention, 1996 (2 of 2)
Box 47, Folder 4	Oshkosh Convention, 1997 (1 of 2)
Box 47, Folder 5	Oshkosh Convention, 1997 (2 of 2)
Box 47, Folder 6	Airventure, NASA Display at, 1998 (1 of 2)
Box 47, Folder 7	Airventure, NASA Display at, 1998 (2 of 2)
Box 48, Folder 1	Staff Snapshots: Reno Air Show, 1995 (1 of 2)
Box 48, Folder 2	Staff Snapshots: Reno Air Show, 1995 (2 of 2)

IV. Administration and General Reference

1. Office and Project Resources

Box 48, Folder 3 **NASA Video Catalog, 1991**
Box 48, Folder 4 **NASA Handbook, 1994 (1 of 4)**
Box 48, Folder 5 **NASA Handbook, 1994 (2 of 4)**
Box 48, Folder 6 **NASA Handbook, 1994 (3 of 4)**
Box 48, Folder 7 **NASA Handbook, 1994 (4 of 4)**
Box 48, Folder 8 **NASA Education Workshop at Ames 1996**
Box 48, Folder 9 **Ames Research Center Training Programs, Fiscal Year 1992**
Box 49, Folder 1 **Management Manual, Ames Research Center, 1993 (1 of 2)**
Box 49, Folder 2 **Management Manual, Ames Research Center, 1993 (2 of 2)**
Box 49, Folder 3 **Ames Capabilities Brochure Paste Up 1989**
Box 49, Folder 4 **Astrogram Committee Recording Secretary Book, 1991-1993 (1 of 2)**
Box 49, Folder 5 **Astrogram Committee Recording Secretary Book, 1991-1993 (2 of 2)**
Box 49, Folder 6 **Astrogram Advisory Committee, 1991-1993 (1 of 2)**
Box 49, Folder 7 **Astrogram Advisory Committee, 1991-1993 (2 of 2)**
Box 49, Folder 8 **General Resource Binder (1 of 2)**
Box 50, Folder 1 **General Resource Binder (2 of 2)**
Box 50, Folder 2 **Photo Captions 1959-1992**
Box 50, Folder 3 **Reno Event Program 1999**
Box 50, Folder 4 **Shuttle Mission Synopsis 1994**
Box 50, Folder 5 **Staff Notices, 1994-1995 (1 of 2)**
Box 50, Folder 6 **Staff Notices, 1994-1995 (2 of 2)**
Box 51, Folder 1 **NACA Personnel Publications, 1952**
Box 51, Folder 2 **Space Log, Vol. 2, No. 1, 1962**
Box 51, Folder 3 **Air Pollution Article Reprint from *The Rule*, 1969**
Box 51, Folder 4 **Vanning, Walter, Articles, 1989-2003**

2. Miscellaneous Reference Publications and Reports

Box 51, Folder 5 **NASA Magazine, 1993**
Box 51, Folder 6 **Information Sciences Division Aerospace Systems Directorate Research Status and Highlights, 1990**
Box 51, Folder 7 **Cultural Climate and Resources Plan, Ames Research Center, 1993**
Box 51, Folder 8 **Future of NASA Space Program, 1990**
Box 51, Folder 9 **Space Exploration Initiative, 1991**
Box 51, Folder 10 **Advancing Automation and Robotics Technology for the Space Station Freedom and for the U.S. Economy, 1991**
Box 51, Folder 11 **NASA Aeronautics Research and Technology Program Highlights**

3. NASA Activities

Box 52, Folder 1 **1972-1975**
Box 52, Folder 2 **1977**
Box 52, Folder 3 **1978**
Box 52, Folder 4 **1979**
Box 52, Folder 5 **1983-1984**
Box 52, Folder 6 **1985-1986**
Box 52, Folder 7 **1988-1989**
