GENERAL COMMENT:

Interviews and opinions rendered were too numerous to mention.

LEGAL SERVICES TO PROJECT STAFF: (Give brief statement of significant developments, problems, recommendations).

Legal opinions for administrative staff and community enterprises on contracts and taxes.

LEGAL SERVICES TO COMMUNITY GOVERNMENT: (Give brief statement of significant developments, problems, recommendations).

Aid committee on self-government in the preparation of the proposed charter for the community of Minidoka.

GENERAL COMMENT:--There has been a marked increase in the number of property problems pertaining to business enterprises left behind at the point of evacuation,--not only correspondence with the Evacuee Property Supervisor of the War Relocation Authority at Seattle, Washington, but also the preparation of letters for the colonists to their agents, who are managing their business enterprises. Quite a number of these business enterprises are being operated through agencies, either through real estate companies, attorneys, or personal friends.

Of the problems relative to Old-Age and Survivor's Insurance these are now being handled through the Counselor's office; however, this office has been called upon to translate documents in order to prove age for the applicants at the request of the Social Security Board at Twin Falls, Idaho.

Six immigration matters have been handled--work consisted of the preparation of exceptions to the proposed findings, conclusions, and order issued by the hearing board.

~~GENERAL COMMENT:~~ Absentee ballot requests were prepared through this office and two trips were made to the Twin Falls F.S.A. Camp to handle the absentee voting there. There has been considerable work in connection with the Federal Reserve Bank, such as the preparation of licenses and reports in behalf of the colonists.

No divorce actions to date; only notarization of affidavits for the final decree. This office has been cooperating with the Counselor's office in this matter.

GENERAL COMMENT:

LEGAL SERVICES TO PROJECT STAFF: (Give brief statement of significant developments, problems, recommendations).

9--By Memorandum

LEGAL SERVICES TO COMMUNITY GOVERNMENT: (Give brief statement of significant developments, problems, recommendations).

This office aided the Committee on Self-Government in the preparation of the proposed charter.

There has been also correspondence with the Federal Reserve Bank of San Francisco relative to specific license applications and reports in the behalf of blocked Japanese nationals.

GENERAL COMMENT: There has been a tremendous jump in the number of property problems pertaining to the business enterprises left behind at the point of evacuation. In many cases their agents have violated their stewardship.

This office has been successful in securing benefit warrants due the colonists on claims made prior to evacuation from the Unemployment Compensation Commission of Alaska.

There has also been a marked increase in the insurance problems as a result of lapsed premiums on the part of the colonists. In addition thereto there have been death and total disability claims.

There has been a notable increase in tax problems and the office has been assisting the evacuees in such matters as: Capital Stock Tax returns, Income Tax problems, State Business Tax, Real Estate Tax, Industrial Insurance Tax, and Personal Property Tax.

There are a number of estates left by deceased persons that require probate and this office is now waiting for instructions from the Solicitor's office.

Three trips were made by members of the Legal Division outside of the Project. Two for the purpose of visiting the Court House to check on legal matters and one in connection with a death claim.

GENERAL COMMENT:

The practice of this office is to discourage divorces, and during the past month there has been two cases referred over to the office of the Counselor of Community Services Division.

Cases Referred to Private Attorneys Outside the Project:

None, but in one case outside attorney was retained, and an internee
for whom we were acting also retained a private attorney.

GENERAL COMMENT:

See Appendix 1. Next month we shall keep records with this report in mind.

LEGAL SERVICES TO PROJECT STAFF: (Give brief statement of significant developments, problems, recommendations).

There has been some increase in referrals from the staff. Matters pending are irrigation lateral contract, liability for property signed for, reimbursement of counties, sending insane back to place of evacuation, compensation to evacuees on sick leave, hospital expense of evacuees out of Center on work leave, agreement for use of property of organization, state income tax liability as affected by work status here, legality and propriety of arrests and incarcerations. Matters completed include use of W.R.A. cars in hauling newspapers,

Construction of statutes as to assignment of claims against the United States, form to be used in moving evacuee property.

LEGAL SERVICES TO COMMUNITY GOVERNMENT: (Give brief statement of significant developments, problems, recommendations).

Mr. O'Brien read, commented, and forwarded to Washington proposed charter and related articles. O'Brien and Moore discussed community government at length with Director Stafford.

- Cases involving library work away from Project; 7

CASES WHEREIN EVACUEE RETAINED OUTSIDE ATTORNEY, BUT IN WHICH THE PROJECT ATTORNEY SERVED:

Consultation with Prosecuting Attorneys, Judges, Sheriffs, and other officials relative to relations with the Center; 12

GENERAL COMMENT: The great increase of the work in this office over the preceding month evidences the necessity for additional legal assistance. The rush of business has resulted in delay in many cases and has also prevented a more efficient organization of the office.

GENERAL COMMENT: The volume of legal services for evacuees continues to increase.

LEGAL SERVICES TO PROJECT STAFF: (Give brief statement of significant developments, problems, recommendations). There has been a steady increase in referrals from the Administrative Personnel. Significant developments in legal services for the project staff are (1) an increase in referrals, particularly by telephone. For example, I have been asked to dictate a contract over telephone. I have been asked to the allowable working hours and compensation of outside carpenters hired on a temporary basis.

LEGAL SERVICES TO COMMUNITY GOVERNMENT: (Give brief statement of significant developments, problems, recommendations).

None

LEGAL SERVICES TO CO-OP.: Assisted the co-op in the preparation of by-laws. Addressed one membership meeting, answering legal questions. Had a half dozen other meetings with the co-op people.

GENERAL COMMENT: The Office of Project Attorney continues to be extremely busy from the time it opens until it closes. Some work is behind due to lack of trained personnel. I am putting on another interviewer and another stenographer. I have appointed an assignment clerk who initially interviews each client coming into the office. He has a form on which he writes the name and address and other information concerning the client.

GENERAL COMMENT:

General increase of work continues. Exceedingly difficult to take care of urgent business currently. Office space is far inadequate and extremely crowded.

LEGAL SERVICES TO PROJECT STAFF: (Give brief statement of significant developments, problems, recommendations).

Some Administration people have shown an increasing tendency to refer questions to me for legal passage. A few are hesitant and sometimes fearful of having their arms blocked.

LEGAL SERVICES TO COMMUNITY GOVERNMENT: (Give brief statement of significant developments, problems, recommendations).

GENERAL COMMENT:

Volunteers for Military Service have been coming in for legal advice. The number of property questions generally, continues to increase. I have no recommendation other than that additional legal services are needed to assist evacuees in their problems. Training persons in the Center to perform the functions of my office is possible except for the time limitation. I have intended to start a course, but there just simply has been no time to do this.

GENERAL COMMENT:

The coming of the evacuee property office has relieved the legal office of much processing of requests for property assistance. The increase in volume of property work, however, result in a total increase in property questions to be answered or referred.

LEGAL SERVICES TO PROJECT STAFF: (Give brief statement of significant developments, problems, recommendations).

The variety and novelty of referrals from the administrative staff continue. A routing of accident reports through the Internal Security and Office of Project Attorney has been evolved.

LEGAL SERVICES TO COMMUNITY GOVERNMENT: (Give brief statement of significant developments, problems, recommendations).

Reviewed and made rough comments, without reference to Administrative Instruction No. 34, proposed charter entirely different from the previously considered at this center.

GENERAL COMMENT:

The Evacuee Attorney, Mr. Clarence Arai, seems capable of carrying the load of evacuee legal matters now that Mr. Clyde Linville has taken over the property matters. I devote my time to administrative legal matters and selected evacuee legal matters.

The repatriation of some forty-eight residents of this center raised numerous questions regarding citizenship, disposition of property, and other contractual arrangements. The same has been true with respect to the segregation program. Most of the problems in connection with the segregation move seem to have been taken care of.

During the month of September, it will be necessary to assist the residents in filing income tax returns. This will require a considerable amount of time and may necessitate hiring some additional personnel on a temporary basis.

Mr. Ulys. Lovell, Acting Project Attorney, left the project March 1 to return to private practice in Arkansas.

Ralph C. Barnhart, Project Attorney at Topaz, came to the project on March 18 and remained until March 30 as Acting Project Attorney.

The work included one law and order case involving arrest of a young evacuee found within the center with a car without a pass and who drove away when Internal Security officers attempted to question him. He was later arrested and held in jail overnight and released after investigation.

LEGAL SERVICES TO COMMUNITY GOVERNMENT: (Give brief statement of services performed, significant developments, pending problems and recommendations.)

Community government is under process of organization. Mr. Sol Kimball came to the project the latter part of the month to assist in organization. One immediate concern of the community government is the setting up of a cemetery board to work toward the establishment of a cemetery.

LEGAL SERVICES TO CONSUMER ENTERPRISES: (Give brief statement of services performed, significant developments, pending problems, and recommendations.)

Legal services to consumer enterprises included discussion of reserves required to be set aside by the Administrative Manual and by the District of Columbia law. Some possibility of confusion exists between the two.

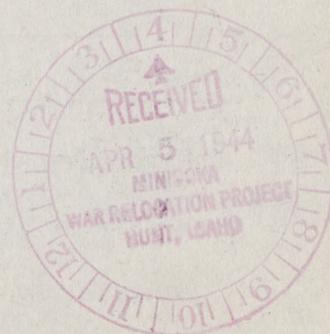

Consumer Enterprises are selling certain confections made by a relocated evacuee in a nearby town. Considered advice given on meeting requirements of state health laws.

GENERAL COMMENT: (Use space below to comment on matters reported above or anything else of significance in connection with your work.)

Large number of selectees were given physical examinations at the project. Apparently none refused to appear for examination.

An extensive farm program is under way. The problem of assignment of labor, motor equipment, hours of work and so forth, is in the process of being worked out within the framework of governing Administrative Manual Provisions.

Evacuee property problems occupy an important part of work of the office. Many hotel leases in Pacific Coast area towns are terminating and raise many problems concerning renewals or sale of furnishings, etc.

important
Important events during month include further calling for pre-physical examinations of 150 more evacuees, all responding. Problems of evacuee property continue to be most important work of evacuee office. Evacuees are evidently seriously concerned by stories of unfair advantage being taken of property situation on West Coast by competing interests there. Suspending by appointed personnel supervisors of evacuee workers who refuse to perform specific jobs they considered to be outside their regular job brought to fore combined problem of too narrow interpretation of job descriptions by evacuees and difficulties in supervisory technique in getting decreasing quotas of workers to perform more varying tasks.

The question of a labor and job survey is the pending problem in order to solve the question of the work day and to what extent work^{ers} can be shifted from one task to another or from gang to gang. The workers insist upon a rigid definition of specified tasks whereas our hearings establish need for elasticity.

Lease of new space to the Co-op; advice on health regulations as to pet animals; passing upon legality of Council ordinances.

GENERAL COMMENT: (Use space below to comment on matters reported above or anything else of significance in connection with your work.)

There are large property interests among the evacuees at Minidoka, and their problems connected with the ownership and absentee management of hotels and apartments, farms and business houses are of great variety.

The work of the Community Council in joint session with the Director's Staff in the determination of the number of workers required for specified work classifications and the avoidance of padded payrolls on the one hand and of work stoppage on the other is the most significant thing being investigated and discussed. The fact finding commission and the Council having offered testimony are awaiting the digest being prepared by the Project Attorney on which express recommendations can be made. The testimony of the members of Appointive Staff and of the 10 evacuees who went to Spokane for WRA equipment was also digested and recommendations prepared.

GENERAL COMMENT: (Use space below to comment on matters reported above or anything else of significance in connection with your work.)

Numerous cases have been presented by the parolees from Internment Camps for Discharge of Parole in order that they may relocate. We investigate these and write the papers for presentation to the United States Attorney of the Residence of Origin.

Also we are working on numerous absentee voter qualification cases, and on relocation of persons back in Western Defense Area where Service men are connected with family.

GENERAL COMMENT: (Use space below to comment on matters reported above or anything else of significance in connection with your work.)

In dividing my time between two WRA Projects (Minidoka and Central Utah) it became apparent that the Council and Judicial Commission were in need of a Code of Ordinances on Health and Police matters as jurisdiction was taken in frequently of violations which the Council should have supervised. The passage of the ordinances has not been pressed due to chance that the pressure might be looked upon as coercion.

LEGAL SERVICES TO PROJECT ADMINISTRATION: (Indicate briefly major matters handled during month, pending problems and developing situations.)

Conferences with Project Director and staff in regard to termination of Utility-Central Service Crew, and conferences with Messrs. Doi and Fujii of the Community Council in an effort to persuade them to support the Administration plan. Also appeals to Washington for more careful consideration of the evacuee records on applicants cleared by the WRA Joint Board, but who are refused for ordnance work in Nebraska, thus endangering the entire recruiting program.

Submission to the Community Council of inventory of the contraband released by Army to WRA for delivery to evacuees, and of procedure for distribution. Cooperation with Council in arranging for attendance of A. P. witness before the Judicial Commission.

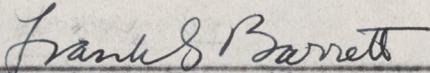

LEGAL SERVICES TO CONSUMER ENTERPRISES: (Give brief statement of services performed, significant developments, pending problems, and recommendations.)

Preparation of Rental License Agreement on Recreation Halls 8 and 34 for showing of motion pictures by the Co-op, with offset for Sunday use of Rec. Hall 8 for church services. Presentation to engineering and Maintenance Division of requests for Co-op Fish Market space; boarding up of space around base of buildings to prevent draft in cold season.

GENERAL COMMENT: (Use space below to comment on matters reported above or anything else of significance in connection with your work.)

In the past month some persons whom the evacuee owners entrusted with property at the time of evacuation were again shown to be untrustworthy. In the cases of a market, farm, hotel, apartment and greenhouse payments which should have been made were withheld or refused and the evacuee-absentee owners had to rely on WRA to force payments. In one instance of a hotel the agent failed to account for collections or operation profits for over two years, that is, ever since evacuation. We are rendering all assistance possible in correcting these wrongs.

We are also doing what we can in applications of parolees to obtain their discharges from parole status. On their behalf we write letters, investigate and collect the recommendations of Internal Security, Welfare and Leave Division.

GENERAL COMMENT: (Use space below to comment on matters reported above or anything else of significance in connection with your work.)

As I have been required to divide my time with the Central Utah Relocation Project at Topaz, Utah, during the past 5 months some of the efforts which might otherwise have been available for the Minidoka Co-op and Community Government could not be provided.
